STANDARD GUARANTEE

Recommended by American Shorthorn Association

- A. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
- B. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
- C. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age, shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
- D. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of a freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
- E. In the event an animal is returned by the buyer to the seller as a non-breeder the buyer must furnish to the seller a veterinarian's certificate showing that his herd is healthy if such a certificate is required by the seller.
- F. All animals catalogued have been tested for T.B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bangs Vaccination Certificate. Announcements will be made covering animals not clear from vaccination.
- G. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females showing names and record numbers of sire and dam, as well as service date.
- H. All prospective buyers should check health requirements of their states. Health certificates will be provided with each lot sold.

BILMAR BOUNCING DIADEM — The extra assurance of a pedigree sound for more than 100 years goes with this big son of Bilmar Queen of Beauty. She was the first daughter of Acadia Queen of Beauty that was a maternal sister to the dam of PS Troubadour himself. Bilmar Wellington, stock bull for Johan Hegg and Sons, Bruce, S.D., is also her son. He sired the grand champions of the 1966 South Dakota State Fair and the American Royal champion Shorthorn steer. Here is a real red meat bull with much stretch and scale!

A Shorthorn bull is known for his ability to produce healthy, fast growing calves under the most adverse conditions. The extra pounds that Shorthorn calves weigh when they go to market mean dollars in your pocket. 16 excellent Shorthorn and Polled Shorthorn bulls are offered in this sale.

BILMAR REGULAR DIADEM — Weighing well over 1,000 pounds at a year and with a gain of 2.33 pounds, he should sire profit-making calves. Regular has the length and quarter that cattlemen are seeking today. His dam is a most reliable cow. She produced a grand champion steer over all breeds at the Ohio State Fair and the grand champion bull of the 1960 "Best of Midwest" Sale. A great opportunity to get this improving Diadem blood into your herd.
